DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 10-12 are rejected under 35 U.S.C. 102(a) as being anticipated by Jaussi et al. (6,501,256).

Jaussi et al. disclose a trimmable bandgap voltage reference in Figs. 1, 3-5 and 8-12. Bandgap voltage reference circuit (100), differential amplifier (130), current source transistors (140, 150, 160), output resistor (170), sources current (144, 154, 164), parallel combination circuit (110) includes resistor (112) in parallel with diode (114), parallel combination circuit (120) includes resistor (122) in parallel with a series combination of variable resistor (124) and diode (126), the series combination of variable resistor and diode have a current flowing there through shown as current (128), Fig. 3 shows a variable resistor for use as variable resistor (124) (Fig. 1) and variable resistor (300) includes multiple resistive device, includes resistive devices (302, 304, 306, 308 and 310).

Allowable Subject Matter

3. Claims 1-9 and 13-17 are allowed.

Response to Arguments

4. Applicant's arguments filed 3/17/06 have been fully considered but they are not persuasive. The recitation that the first resistor such that a conductance of the first variable resistor equals a sum of a conductance for the first resistor and a combined conductance for the selected second resistors has not been given patentable weight because it has been that a preamble is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a self-contained description of the structure not depending for completeness upon the introductory clause. *Kropa v. Robie*, 88 USPQ 478 (CCPA 1951).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
